PROFESSIONAL SUMMARY

Analyst for 4 years and **technical sales** specialist for 2 years; focused on emerging SaaS products. Driven by fast-paced, innovative, and continuously growing environments. Currently working as a freelancer under QuinX.

WORK EXPERIENCE

Apr '19 – Current

Founder/ Senior Automation Analyst, QuinX, Montreal Canada

QuinX is a technology agnostic automation-consulting firm, specializing in Business Process Automation using RPA tools.

- ❖ Advise SMEs on the best **vendor/product fit**;
- ❖ Act as an evangelist for the Automation and AI industry by hosting regular events including panels, **presentations and workshops**;
- ❖ Assist clients with end-to-end project **lifecycle management**: advocating for change, developing project scope, business process redesign, (PoC) proof of concept, and product implementation;

Jan '18 – Mar '19

Business Analyst, SolveXia, Sydney Australia

SolveXia provides an automation SaaS platform and **IT consulting** services to large industries in banking, insurance, travel and manufacturing.

- ❖ **Extract, transform**, validate, clean, **load** and model data with the purpose of understanding and making conclusions for executive stakeholders and board members;
- ❖ Align current and potential clients' needs with SolveXia's product;
- ❖ Generate leads through cold-calling, webinars and content writing
- ❖ Experiment with various 3rd party application APIs, including **Salesforce's**, to enhance our product and expand our services

Aug '15 – Dec '17

Junior Engineer/Analyst, Lumenwerx, Montreal Canada

Lumenwerx is a manufacturing company, specializing in LED luminaires.

- ❖ Increase pre-production efficiency by introducing automation solutions using **VBA**;
- ❖ Provided technical support to all production-related departments, serving as the **cross-functional liaison**.
